

PRATYUSH NANDI

Kolkata, West Bengal • +91-7890706472 • pratyushnandi100@gmail.com • linkedin.com/in/pratyushnandi/ • github.com/pratyushnandi

I am a Dynamic MCA student (Adamas University) passionate about technology. Proficient in Web Developing & Front-end Development. Eager to contribute skills and knowledge to a forward-thinking organization.

PROJECTS

Detectify – Intelligent Traffic Signal Detection & Violation Alert System

- An AI-powered system with an intuitive and user-friendly interface for real-time traffic monitoring.
- Detects traffic signals, vehicle movement, and violations such as red-light jumping, speeding, and no-helmet riding using computer vision.
- Uses machine learning models integrated with Python to analyze live camera feeds and generate accurate violation alerts.
- Helps reduce human error and enhances enforcement efficiency through real-time, automated surveillance.

Campus Recruitment Management System

- A dynamic web-based platform built using PHP and Laravel to simplify and manage the entire campus recruitment workflow.
- Allows companies to post job openings, review eligible students and conduct recruitment activities efficiently through a structured portal.
- It is a responsive user-friendly website. Enables students to register, upload resumes, apply for jobs and track their application status with real-time notifications.

Ambulance Management System

- Developed a web-based Ambulance Management System to streamline emergency response and vehicle allocation.
- Implemented features for ambulance tracking, booking, and real-time status updates.
- Designed user-friendly interfaces for patients, drivers, and administrators.
- Technologies used : PHP, MySQL, JavaScript, Bootstrap, HTML, CSS.
